RE: BNE Wind Project Proposal

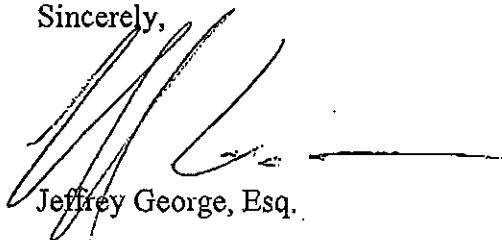

To Whom It May Concern:

As I unfortunately must be absent for the hearing this afternoon, I wish to send this letter of support for BNE Energy's proposed wind project in Prospect, CT. I also wish to make it clear that I am in opposition to the proposed bill HB 6249.

The multitude of benefits which will come from successful completion of this project are already well known and do not need to be reiterated. This project will be a huge step forward in improving the town and state's economic and ecological issues. These continuous problems will not reverse themselves unless actions such as this are taken.

In summary, as a resident of the State of Connecticut and the Town of Prospect, I want to voice my support for the BNE Wind Energy project. The issues we face are real and the benefits that projects such as these tend to offer are hard to ignore. Thank you for your time.

Sincerely,

A handwritten signature in black ink, appearing to be 'J. George', with a long horizontal line extending to the right.

Jeffrey George, Esq.
